LESSON SIX

listen carefully. Have you heard this music before?

Wolfgang Amadeus Mozart

Haydn was 24 years older than Mozart.

The composers Wolfgang Amadeus Mozart and Joseph Haydn were friends. Their relationship is not very well documented, but the evidence that they enjoyed each other's company and greatly respected each other's work is strong, and suggests that the elder Haydn acted in at least a minor capacity as a mentor to Mozart. A group of string quartets by Mozart are dedicated to Haydn.
