本次輔導建議	<p>It's amazing that Gabby takes the full responsibility to teach the entire class without any help from the English teachers. Way to go, Gabby!!! This is exactly what should happen in this class.</p> <p>It is also quite incredible that Gabby produced a video clip for the students to watch. The oral introduction in the video clip is clear. If Gabby will make another video, she may consider not putting subtitles on.</p> <p>The students still enjoyed the activity to use tablets to answer questions. It's a shame to see some groups not follow Gabby's instruction to name their groups.</p> <p>Some strips of paper with music knowledge in English are put on the wall, which may help students to review what they have learned.</p> <p>Just a few minor suggestions regarding the language:</p> <p>*What's happen? →What happened?</p> <p>*Look at here. →Look at ____ (the whiteboard/book, etc.) here.</p> <p>*Congratulation. →Congratulations.</p> <p>*Pay attention to the pronunciation of rhythm.</p>
