三、教學設計理念說明:

(一)設計簡述:

在音樂教學歷程中,有些不是統整學習的內容,但卻具有其必要性。例如第一天上課的音樂自我介紹,十二月到一年級小手班上報佳音,還有個別或小組測驗時需要的差異化學習作業,都是音樂課經常有的學習活動。藉著教案整理的機會,讓不一樣的音樂課也有機會展現學習的創意。

六、教學省思:

活動名稱	Feedback		
Listen and Write	This is an easy work for students because they can look at the music book. Through the		
	listening and writing works make the students familiar to the staff.		

	Some students do their best in the activity. These works are so wonderful.
Notes and Rests	In the class the students have to do two things, the first one is singing test, the second
	task is to identify notes and rests.
	In the music book, there are musical notes and rests for students to learn. But there is a
	big problem in it. In the book, the first letters of the musical notes and rests are all
	capitalized. So the first letters of the notes and rests written by the students are all capital
	letters. But in the sentence we should write lowercase letters.
	We have to modify the musical notes and rests sheet.
Time signatures	The students have two tasks in the class. They have to play the recorder for the test, and
	the second task is to learn the Time Signature.
	After the class I found that I had to explain the second task first in class because students
	listened more attentively at first.
Hakka musician	Students discuss and search the key points of the Hakka musicians seriously.
	The students have to tell the musician's birth year and birth place in English. They can
	tell the features and the famous work of the musician in Chinese or in English.
	Most students can complete the task within the music class time.
Conducting 1	It is not easy to use two ands doing different actions.
	The bilingual video of the conducting is very suitable for students to learn the
	conducting.
	Some students can conduct well, but some students can not control the rhythm. We have
	to practice more times for the rhythm.
Conducting 2	This is the second time to learn the conducting. Students can conduct better than last
	week.
	Some students control the points of the conducting well. They have a stronger sense of
	rhythm.
	Some od the students cannot conduct well because of they are a little shy to conduct on
	the stage.
Traditional theater	Students like to learn on the tablets.
/Venn diagram	Through reading and presentation, students can learn the features of the traditional
	theaters.
	Some students can not read the articles smoothly.
	It's not easy for students to compare two traditional theaters.
Christmas carols	The students are shy to sing louder in front of the lower classmates.
	Some students make the Christmas cards beautiful. The lower students also make cards
	to the upper classmates.

七、結語:

創意是藝術課程非常重要的元素。學生本來覺得音樂課的書寫任務很有壓力,但透過圖表、

平板以及合作學習,這個任務變得愉快有挑戰,因此學習效果佳。即使它們不屬於統整學習範疇,但也是音樂學習的養分喔。
