# Write the song together

# Try it

# Choose one bar of a song

# Choose one song

# Choose one bar of a song

# Play together

# Sing together

# Sing together

# Play together

# Feedback

- It is not easy to compose a song. This course has been revised three times. In the first course, students need to write scores on paper. In the second course, students need to write the composition method on paper. In the last class, students directly sing or play the music they created. Finally, in this way, students are more able to experience simple composition.
