

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

Courtship, 交配

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>viviparous</u>
2. Animals often engage (從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>oviparous</u>
3. Humans have many __ (5) __ behaviors.	(3) <u>courtship</u>
4. Babies often have many of the __ (6) __s of their parents.	(4) <u>breed</u>
	(5) <u>parenting</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 飛天冰冰

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light
Others crown will be big, wing will be pink

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

c) What parenting behaviors?

Lactation (哺乳) feeding (餵食) Guide hunting (指導獵食) Guide to fly
Others _____

Think

Please draw your imaginary animal in the grid below. (Including the surrounding environment, young children) PS. 我有一位也會噴冰的八星狐麻吉, 我會畫牠的

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>oviparous</u>
2. Animals often engage(從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>courtship</u>
3. Humans have many __ (5) __ behaviors.	(3) <u>breed</u>
4. Babies often have many of the __ (6) __s of their parents.	(4) <u>parenting</u>
	(5) <u>viviparous</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 麻雀老鹰

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light
Others _____

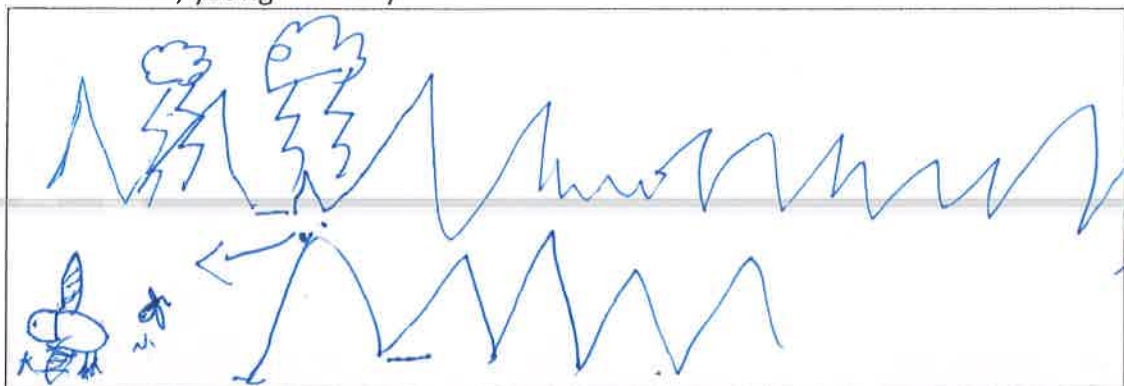

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly
Others _____

Think

Please draw your imaginary animal in the grid below.(Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

A: 求偶。

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>oviparous</u>
2. Animals often engage(從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>viviparous</u>
3. Humans have many __ (5) __ behaviors.	(3) <u>parenting</u>
4. Babies often have many of the __ (6) __s of their parents.	(4) <u>characteristic</u>
	(5) <u>breed</u>
	(6) <u>courtship</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 獅鷹獸

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light
Others _____

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

c) What parenting behaviors?

~~Lactation(哺乳)~~-feeding(餵食) Guide hunting(指導獵食) Guide to fly
Others _____

Think

Please draw your imaginary animal in the grid below.(Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>Viviparous</u>
2. Animals often engage(從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>oviparous</u>
3. Humans have many __ (5) __ behaviors.	(3) <u>breed</u>
4. Babies often have many of the __ (6) __s of their parents.	(4) <u>courtship</u>
	(5) <u>parenting</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 奇異鳥

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light

Others _____

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

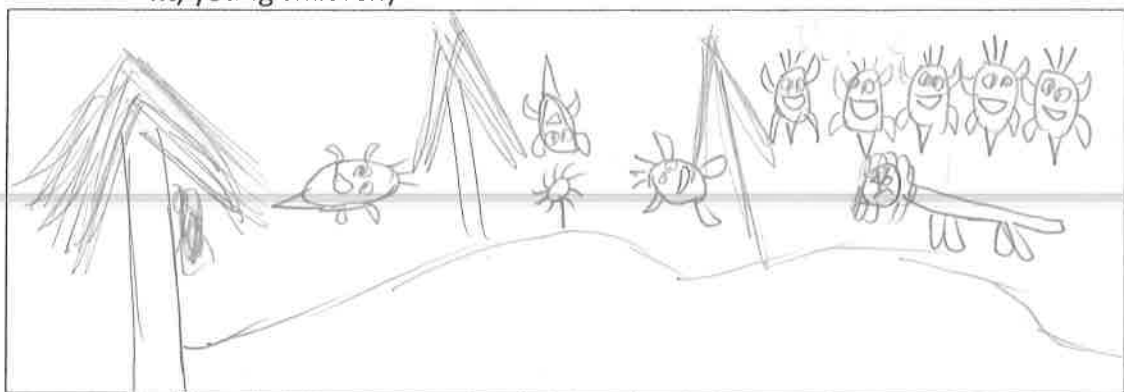

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly

Others _____

Think

Please draw your imaginary animal in the grid below.(Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

A: 求偶後交配

Concept

courtship (求偶) -	breed (繁殖) -	oviparous (卵生) -
viviparous (胎生) -	characteristic (特徵)	parenting (育幼)

1. Most animals are <u>(1)</u> and <u>(2)</u> by birth.	(1) <u>viviparous</u>
2. Animals often engage(從事) in many types of <u>(3)</u> behaviors in order to <u>(4)</u> .	(2) <u>oviparous</u>
3. Humans have many <u>(5)</u> behaviors.	(3) <u>courtship</u>
4. Babies often have many of the <u>(6)</u> s of their parents.	(4) <u>breed</u>
	(5) <u>parenting</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 羽箭鯨

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light

Others: _____

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

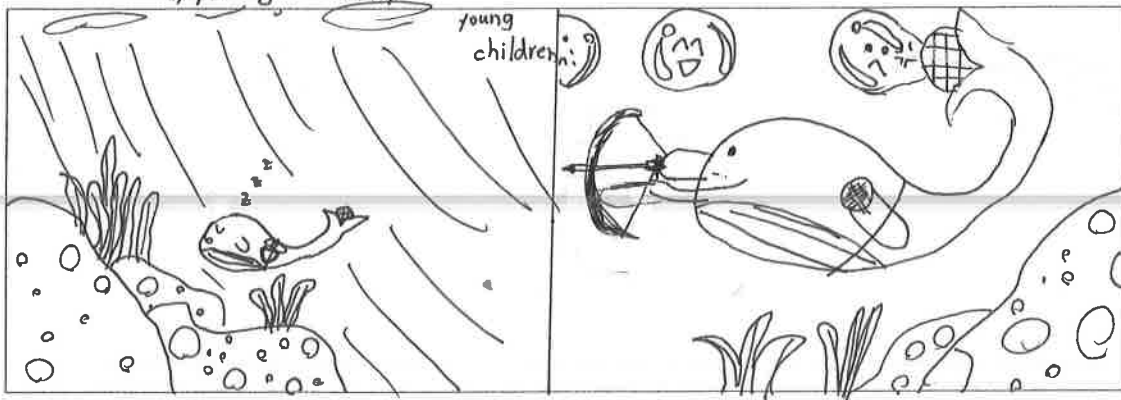

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly

Others 指導射箭

Think

Please draw your imaginary animal in the grid below.(Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶、交配

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>viviparous</u>
2. Animals often engage(從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>oviparous</u>
3. Humans have many __ (5) __ behaviors.	(3) <u>courtship</u>
4. Babies often have many of the __ (6) __s of their parents.	(4) <u>breed</u>
	(5) <u>parenting</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 史萊姆

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light

Others 碰交配是分食

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

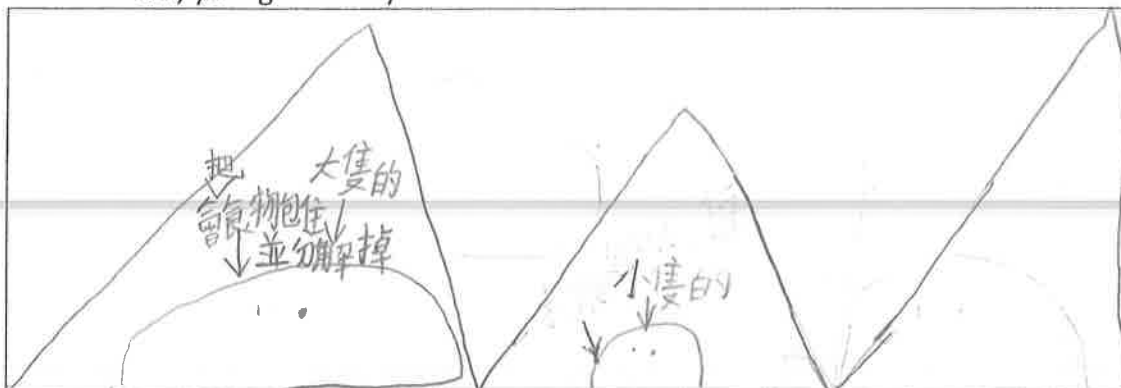

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly

Others _____

Think

Please draw your imaginary animal in the grid below.(Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶·交配

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>viviparous</u>
2. Animals often engage(從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>oviparous</u>
3. Humans have many __ (5) __ behaviors.	(3) <u>courtship</u>
4. Babies often have many of the __ (6) __s of their parents.	(4) <u>breed</u>
	(5) <u>parenting</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 天使小貓咪

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light

Others _____

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

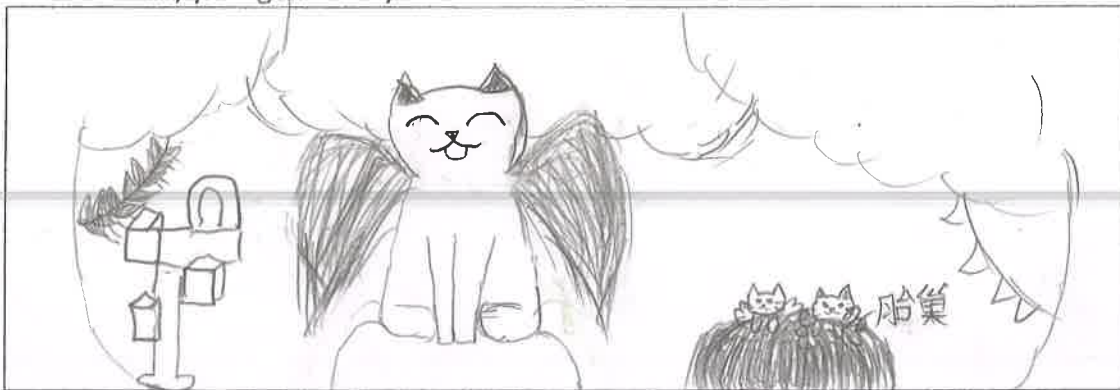

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly

Others _____

Think

Please draw your imaginary animal in the grid below.(Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶, 交配

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>viviparous</u>

3. Humans have many __ (5) __ behaviors.	(3) <u>characteristic</u>
4. Babies often have many of the __ (6) __s of their parents.	(4) <u>breed</u>
	(5) <u>parenting</u>
	(6) <u>courtship</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 打座冷熊

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light

Others _____

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

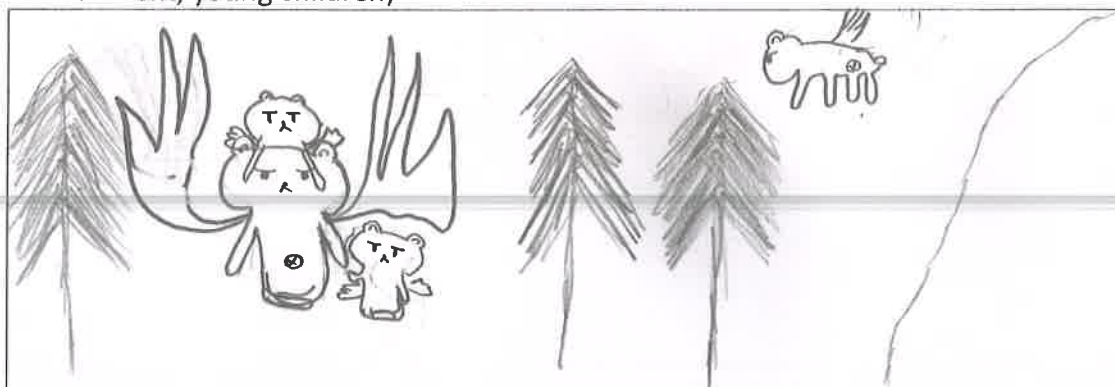

c) What parenting behaviors?

Lactation (哺乳) feeding (餵食) Guide hunting (指導獵食) Guide to fly

Others _____

Think

Please draw your imaginary animal in the grid below. (Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶 交配

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are <u>(1)</u> and <u>(2)</u> by birth.	(1) <u>viviparous</u>
2. Animals often engage(從事) in many types of <u>(3)</u> behaviors in order to <u>(4)</u> .	(2) <u>oviparous</u>
3. Humans have many <u>(5)</u> behaviors.	(3) <u>courtship</u>
4. Babies often have many of the <u>(6)</u> s of their parents.	(4) <u>breed</u>
	(5) <u>parenting</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: _____

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light
Others _____

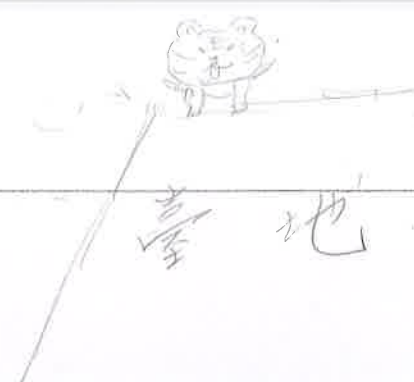

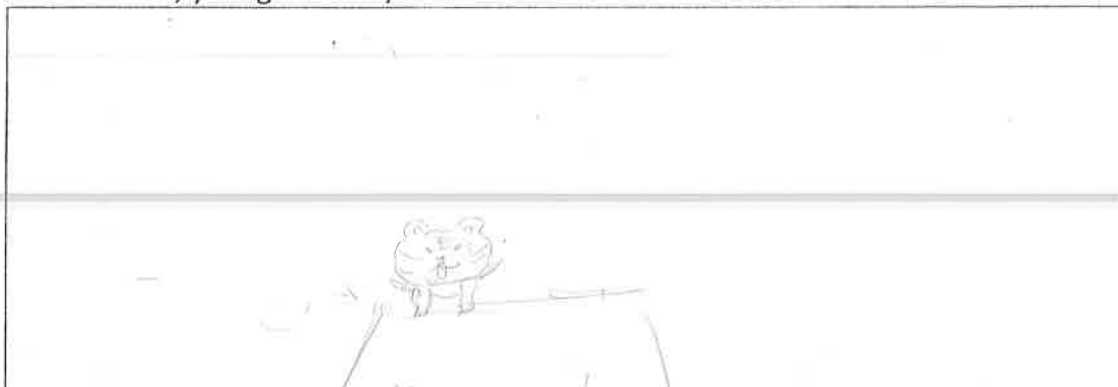

b) What is the breeding method? Oviparous Viviparous ~~Ovoviviparous~~

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly
Others _____

Think

Please draw your imaginary animal in the grid below.(Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶交配

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>viviparous</u>
2. Animals often engage (從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>oviparous</u>
3. Humans have many __ (5) __ behaviors.	(3) <u>courtship</u>
4. Babies often have many of the __ (6) __s of their parents.	(4) <u>breed</u>
	(5) <u>parenting</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 掃眼蛇

a) What courtship behaviors are found?

生 Sounds 跳 Dance Change the 氣味 smell Change the appearance 外 Light 光

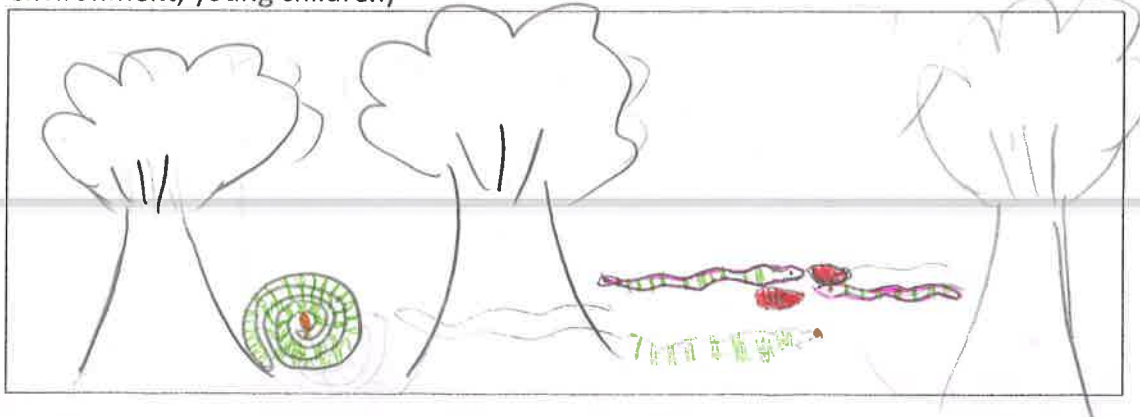

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

c) What parenting behaviors?

Lactation (哺乳) feeding (餵食) Guide hunting (指導獵食) Guide to fly
Others _____

Think

Please draw your imaginary animal in the grid below. (Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶、交配

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>viviparous</u>

4. Babies often have many of the __ (6) __s of their parents.	(5) <u>parenting</u> (6) <u>characteristics</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 八尾狐

a) What courtship behaviors are found?

- Sounds Dance Change the smell Change the appearance Light
- Others 尾巴變成一個大扇形

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

c) What parenting behaviors?

- Lactation (哺乳) feeding (餵食) Guide hunting (指導獵食) Guide to fly
- Others _____ (直到牠長出四個尾巴)

Think

Please draw your imaginary animal in the grid below. (Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶、交配

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are <u>(1)</u> and <u>(2)</u> by birth.	(1) <u>viviparous</u>
2. Animals often engage(從事) in many types of <u>(3)</u> behaviors in order to <u>(4)</u> .	(2) <u>oviparous</u>
3. Humans have many <u>(5)</u> behaviors.	(3) <u>courtship</u>
4. Babies often have many of the <u>(6)</u> s of their parents.	(4) <u>breed</u>
	(5) <u>parenting</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 巨大鯊魚 (Giant shark)

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light
Others 發出超音波

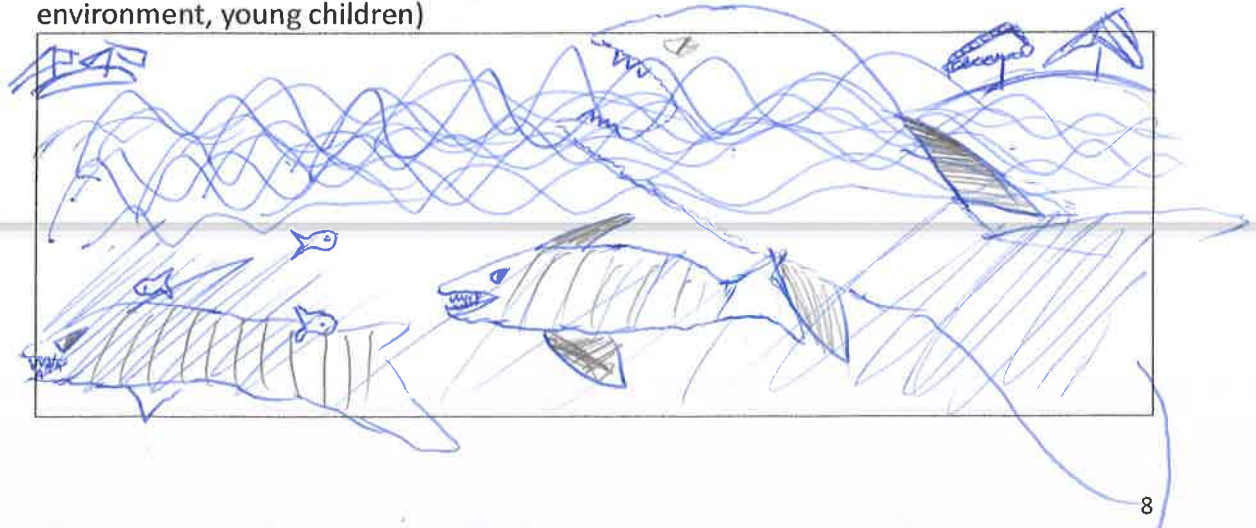

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly
Others _____

Think

Please draw your imaginary animal in the grid below.(Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

courtship and breed.

Concept

courtship (求偶) ✓	breed (繁殖)	oviparous (卵生) ✗
viviparous (胎生) ✓	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>oviparous</u>
2. Animals often engage(從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>viviparous</u>
3. Humans have many __ (5) __ behaviors.	(3) <u>courtship</u>
4. Babies often have many of the __ (6) __s of their parents.	(4) <u>parenting</u>
	(5) <u>breed</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 貓伊布

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light

Others: 耳朵垂下來

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

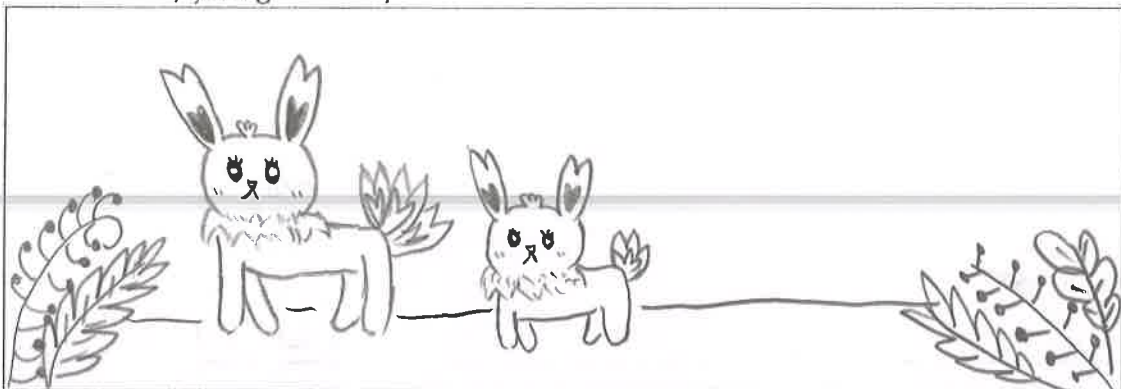

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly

Others _____

Think

Please draw your imaginary animal in the grid below.(Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

courtship and breed

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>oviparous</u>
2. Animals often engage(從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>viviparous</u>
3. Humans have many __ (5) __ behaviors.	(3) <u>courtship</u>
4. Babies often have many of the __ (6) __s of their parents.	(4) <u>parenting</u>
	(5) <u>breed</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 九尾靈狐 liliane

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light

Others 蹲下

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

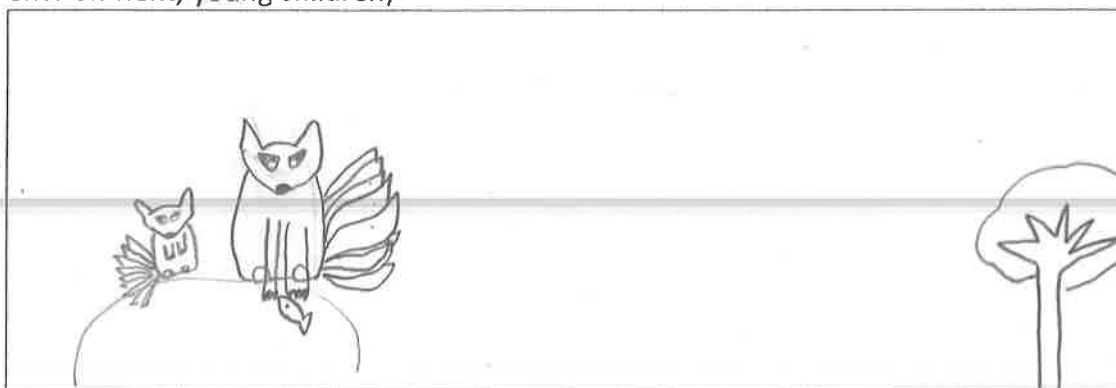

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly

Others _____

Think

Please draw your imaginary animal in the grid below.(Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

Courtship , 交配

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>oviparous</u>
2. Animals often engage(從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>viviparous</u>
3. Humans have many __ (5) __ behaviors.	(3) <u>courtship</u>
4. Babies often have many of the __ (6) __s of their parents.	(4) <u>parenting</u>
	(5) <u>breed</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 飛天毒刺貓

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light
Others _____

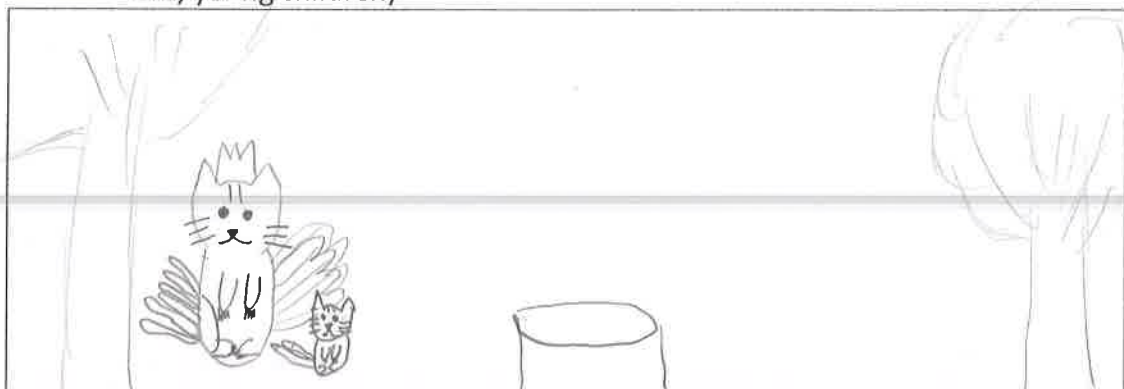

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly
Others _____

Think

Please draw your imaginary animal in the grid below. (Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are <u>(1)</u> and <u>(2)</u> by birth.	(1) <u>viviparous</u>
2. Animals often engage(從事) in many types of <u>(3)</u> behaviors in order to <u>(4)</u> .	(2) <u>oviparous</u>
3. Humans have many <u>(5)</u> behaviors.	(3) <u>Courtship</u>
4. Babies often have many of the <u>(6)</u> s of their parents.	(4) <u>parenting</u>
	(5) <u>breed</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: ghost fish

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light
Others _____

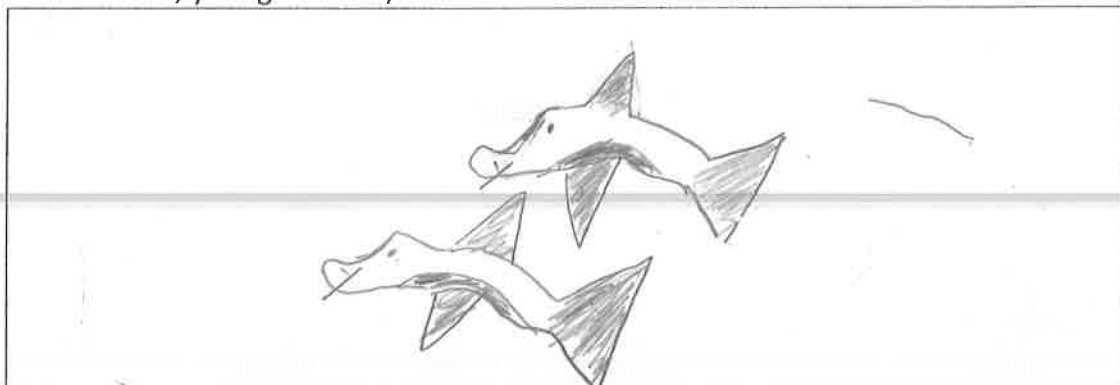

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly
Others _____

Think

Please draw your imaginary animal in the grid below.(Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶的行為和交配的行為

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are <u>(1)</u> and <u>(2)</u> by birth.	(1) <u>oviparous</u>
2. Animals often engage (從事) in many types of <u>(3)</u> behaviors in order to <u>(4)</u> .	(2) <u>courtship</u>
3. Humans have many <u>(5)</u> behaviors.	(3) <u>viviparous</u>
4. Babies often have many of the <u>(6)</u> s of their parents.	(4) <u>breed</u>
	(5) <u>courtship</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: goat

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light
Others _____

b) What is the breeding method? Oviparous Viviparous Ovoviviparous

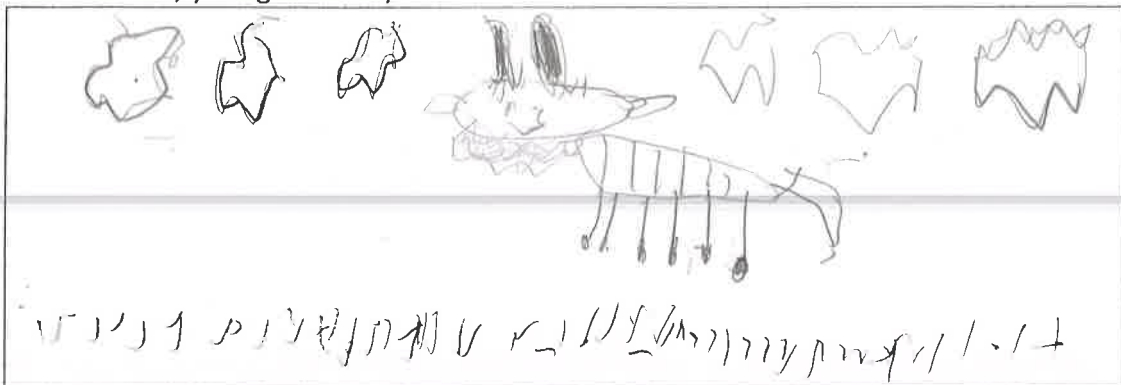

c) What parenting behaviors?

Lactation (哺乳) feeding (餵食) Guide hunting (指導獵食) Guide to fly
Others _____

Think

Please draw your imaginary animal in the grid below. (Including the surrounding environment, young children)

他用胎生來繁殖下一代
小寶寶長出長長的角

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

Courtship, breed

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are <u>(1)</u> and <u>(2)</u> by birth.	(1) <u>oviparous</u>
2. Animals often engage(從事) in many types of <u>(3)</u> behaviors in order to <u>(4)</u> .	(2) <u>viviparous</u>
3. Humans have many <u>(5)</u> behaviors.	(3) <u>courtship</u>
4. Babies often have many of the <u>(6)</u> s of their parents.	(4) <u>breed</u>
	(5) <u>parenting</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: _____

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light

Others 打地板

b) What is the breeding method? Oviparous Viviparous ~~Ovoviviparous~~

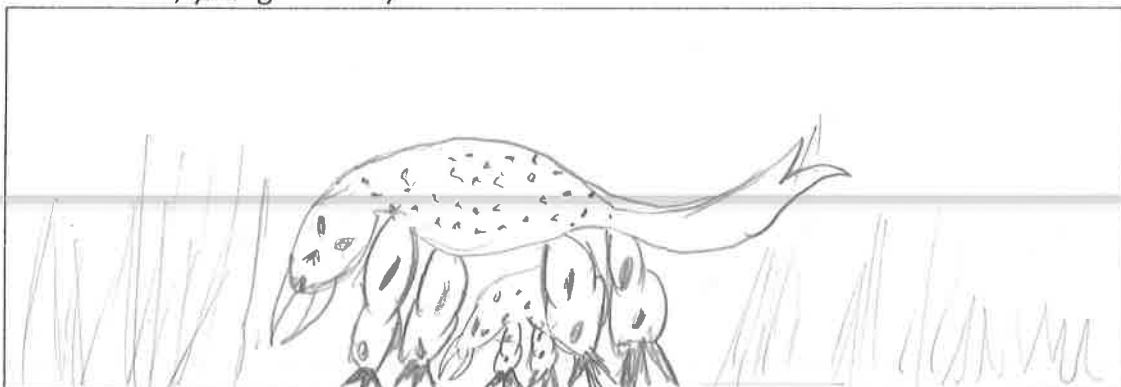

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly

Others _____

Think

Please draw your imaginary animal in the grid below.(Including the surrounding environment, young children)

PS: 斑點的多少, 越多

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶、交配

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>viviparous</u>
2. Animals often engage(從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>oviparous</u>
3. Humans have many __ (5) __ behaviors.	(3) <u>courtship</u>
4. Babies often have many of the __ (6) __s of their parents.	(4) <u>breed</u>
	(5) <u>parenting</u>
	(6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 海星

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light
Others _____

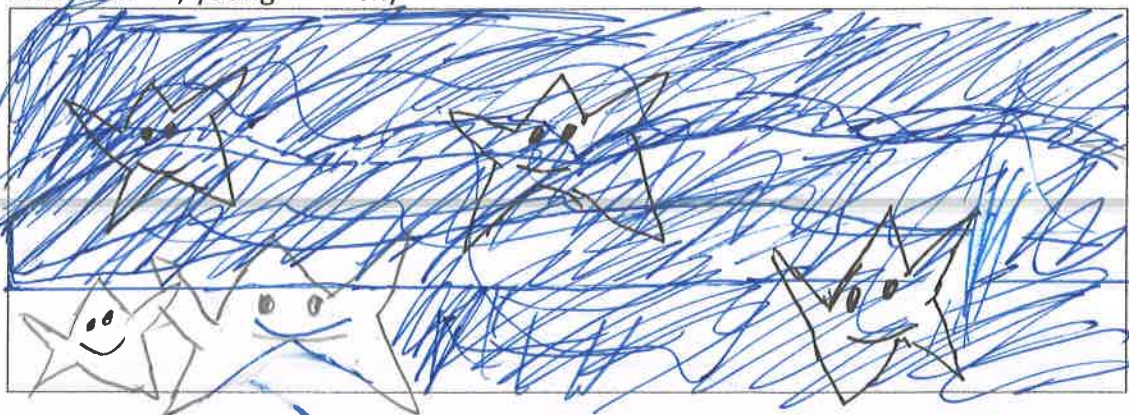

b) What is the breeding method? Oviparous Viviparous

c) What parenting behaviors?

Lactation(哺乳) feeding(餵食) Guide hunting(指導獵食) Guide to fly
Others _____

Think
