

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶·交配·育幼

Concept

courtship (求偶) ✓	breed (繁殖) ✓	oviparous (卵生) ✓
viviparous (胎生) ✓	characteristic (特徵) ✓	parenting (育幼) ✓

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>oviparous</u>
2. Animals often engage (從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>viviparous</u> (3) <u>courtship</u>
3. Humans have many __ (5) __ behaviors.	(4) <u>breed</u>
4. Babies often have many of the __ (6) __s of their parents.	(5) <u>parenting</u> (6) <u>characteristic</u>

Content : Discovery of new animals(part 2)

Imagine that you have entered a brand new land, where there are all kinds of new creatures waiting for you to discover, imagine a fantasy species that belongs to you!

Name: 極冰那

a) What courtship behaviors are found?

Sounds Dance Change the smell Change the appearance Light

Others _____

b) What is the breeding method? Oviparous Viviparous

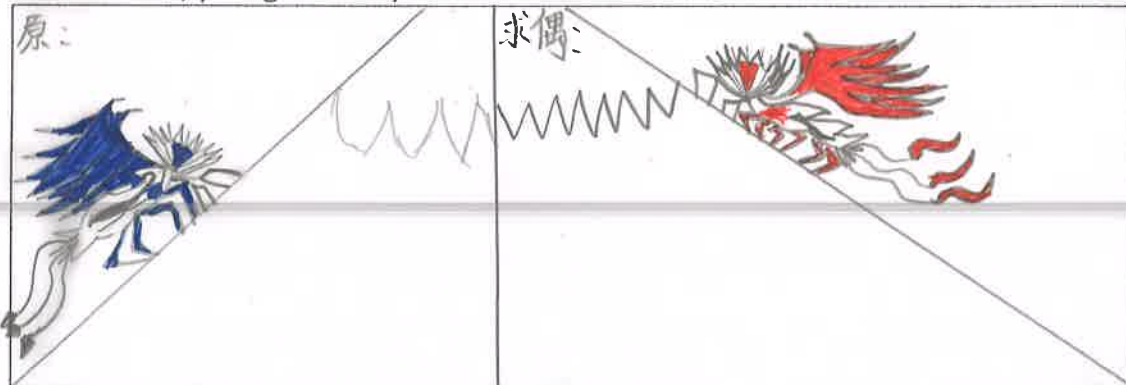

c) What parenting behaviors?

Lactation (哺乳) feeding (餵食) Guide hunting (指導獵食) Guide to fly

Others _____

Think

Please draw your imaginary animal in the grid below. (Including the surrounding environment, young children)

Unit 3 Animal world - How animals reproduce

Warmer

1. What behaviors are reproductive behaviors?

求偶、交配、育幼 ✓

Concept

courtship (求偶)	breed (繁殖)	oviparous (卵生)
viviparous (胎生)	characteristic (特徵)	parenting (育幼)

1. Most animals are __ (1) __ and __ (2) __ by birth.	(1) <u>viviparous</u>
2. Animals often engage(從事) in many types of __ (3) __ behaviors in order to __ (4) __.	(2) <u>oviparous</u>
